WeatherProducer

Your WSI application arrived installed and ready to go. Now, your instructor's mission is to teach each of you to get the most out of the features this application has to offer. At this stage of training we anticipate there will be little if any time to make modifications specific to your WeatherProducer show. However, do keep track of your ideas on this form. At the end of the training, and if time permits, you and your instructor can prioritize the wish list and work together to achieve your goals. If you still have questions after training and after reviewing your course documentation call WSI Customer Support at 978.983.6350.
